

A large, ornate interior space, likely a hotel lobby or restaurant, featuring a central tree with a thick, natural-looking trunk and lush green foliage. The space is supported by several tall, white, classical columns with decorative capitals. The walls are white with intricate, geometric patterns. In the background, there is a bar area with shelves of bottles and a seating area with armchairs and a sofa. The lighting is warm and ambient.

ÁRBOLES
CON HOJA
PRESERVADA O ARTIFICIAL

Interior y exterior

Tronco natural

GREEN + DECORUM

Cada **ÁRBOL** es hecho a mano **a medida**, no utilizamos moldes. Según sus características puede trasladarse de una pieza para su disposición en el lugar, o puede ser enviado por secciones que serán ensambladas en el sitio.

La **variedad** de árboles que podemos crear es la misma que ofrece la naturaleza, **árboles realistas** recreados de forma precisa así como lo que nuestra imaginación alcance en términos de **creaciones más artísticas** que rompan con los patrones establecidos.

Todos los árboles se construyen **a partir de un tronco natural** que puede ser de corteza lisa, áspera, escamosa, retorcida, nudosa, con grietas, surcos, ...

Sobre el tronco disponemos las ramas con hojas que pueden ser **preservadas o artificiales**. Dentro de las artificiales existe una amplia gama de opciones que se reparten en diferentes tipos de materiales como la tela, el plástico, el poliéster, ... y **para exteriores materiales UV**.

*Preguntar por ignifugado.
